# White Paper

Conative Systems, Inc, has been in business since 1990. Our focus has been the service and repair industries. For over 16 years we have developed and implemented industry specific business management systems integrated to the robust Sage MAS 90 and 200© Accounting system.

The Service Manager 4™ Series of products are easy to install, easy to train, and simple to operate for first-time Users. As a result of streamlined functionality and value-added features we are well received by both End Users and Management. The unique features we offer can enhance your competitive edge and reduce cost. We believe that the inclusion of Service Manager 4™ in your operations will further your company's long-term strategy.

Our years of experience in implementing business systems places us in a unique position to offer qualified consulting and implementation services to ensure a successful business system.

Keeping up with trends and delivering vital products is a job we take seriously. Upgrades are typically delivered quarterly and consists mostly of new features such as new reports, added User requested functions, and database updates for pricing, flat rates, etc.

Our relationship starts with the installation and continues well after post-implementation. Useful upgrades and information is offered throughout the year. Customer feedback and our own research is compiled into valuable upgrades and newsletters and automatically sent to our clients.
