

## Contract Manager Add-On Options

---

### Product Information

---

Service Manager's business systems are designed for companies who provide sales, repair, and maintenance services.

We offer a comprehensive and configurable system addressing the end-to-end business processes in our targeted industries. Unlike most software that requires a business to change their processes or requires extensive modification, Service Manager has a built in configurator to tailor the system to your specific requirements.

For more information about Service Manager System. Please call us at (951) 694-5333 or send us an email to: [info@conativesystem.com](mailto:info@conativesystem.com)

## Options available for Contract Manager

Module	Summary Description	Price
■ <b>Contract Cost Collection Option</b>	This add-on to Contract Manager tracks accounting cost from Time Card, Accounts Payable and Purchase Order. With this add-on you can define cost tracking categories under the contract and track cost of labor, materials, outside services, etc. By collecting cost from all areas of the accounting you are better informed of the cost of service and profitability.	\$1,200
■ <b>Deferred Billing Option</b>	Adds the function of deferred bill accounting method to Contract Manager. Contract invoicing will post the sales to a deferred account. Revenue is recognized automatically on a periodic basis. Deferred Revenue reports available.	\$550
■ <b>Contract Metered Billing Option</b>	Track and bill contract equipment by meters, count or clicks. Bill for overage. Give equipment an allowance and report ending counts on a weekly or monthly basis. Includes report showing count status.	\$550
■ <b>Contract Alerts Option</b>	Add business-alert features to your contract management process. Email the right people at the right times. Sends notifications based on User-defined rules such as: Expiring contract and warranty, contract overage, budget exceeded, service level missed, etc. Format of the alert and who receives them are User-definable.	\$750
■ <b>Service Credit (Block) Billing Option</b>	<p>Offer contracts in terms of by blocks of time and dollars. Often called prepaid block or service credit, this option will bill for blocks of hours or dollars. The Blocks of dollars will be decreased over time by accumulated Service Orders.</p> <p>Set custom bill rates for labor while covered under prepaid-clock as well as out of scope services. Auto renew block of dollars, generating invoice on next billing cycle.</p>	\$1,500
